For The Best In Sight

Willmar • Olivia • Paynesville • Litchfield • New London

This year we are proud to announce the addition of our Visiooffice System. We are one of a few elite practices in Minnesota that offers this state of the art optical measuring system. The most important factor in wearer satisfaction with progressive lenses is fitting accuracy. The Visiooffice system completes our goal to exceed our patient's expectations with technology and product satisfaction. Along with the Visiooffice system we are proud to introduce Eyecode technology to our visual performance products.
